Michael,

I have reviewed the referenced Amended Form 2A Oil & Gas Location Assessment and have the following comments.

- 1) In the Cultural Setback distance section you have indicated the distance from the nearest well to an Above Ground Utility is 525 feet. A review of your Location Drawing shows that proposed well Razor 26I-2348 is 412 feet from an overhead power line to the east as indicated by Line L12 on the Line Table. Therefore, I would like to change this distance from 525 feet to 412 feet.
- 2) In the Cultural Setback distance section you have indicated the distance from the nearest well to a Property Line is 894 feet. A review of the Form 2 APD for the Razor 26I-2348 indicates the nearest Property Line to that well is 526 feet. If 526 feet is correct, I would like to update that distance on the Form 2A to match the Form 2 APD.
- 3) In the Water Resources section you have indicated the distance to the nearest downgradient surface water feature is 2,504 feet. A review of the the original Form 2A for this Oil & Gas Location and aerial photos indicate there is a pond located approximately 930 feet to the south. Therefore, I would like to change this distance from 2,504 feet to 930 feet.

Please respond to this correspondence by November 27, 2016. If you have any questions, please contact me. Thank you.

Doug,

Go ahead and change the following:

- 1) 412 feet
- 2) 526 feet
- 3) 930 feet

Thanks,
Michael L. Brown
