<b>COGCC Comments</b>		
Comment	User	Date
The noxious weeds found along the north and east sides of the location had produced seed and have died off for the season. There was not many weeds noticed however more may establish in the following growing season. Any remaining seed heads should be collected and removed and follow up weed control should be performed in the spring growing season.	CostaR	11/08/2016
The operator indicated that a variance request of certain final reclamation requirements is in process to be submitted.	CostaR	11/08/2016
