Comment: Well file records indicate well was plugged 12/07/2015 by A-Plus Well Service. Surrounding area appears to be grazing/pasture with some areas irrigated. No production equipment on location. Above ground well head marker in place and it appears gravel has been stripped off location and piled just S off location. Part of access road appears to have gravel removed but culvert at irrigation canal remains in place. Disturbed area does not appear to be seeded.
