Good Afternoon Doug!

Attached please find the revised scaled facility layout showing the temp water tank area (sheet 1). We have also added a LACT Unit. Could you please change LACT to 1 on the form? The location is shown on Sheet 1 and 2 of the attached.

Thank you!!

Venessa

Venessa,

I have reviewed the referenced Form 2A Amended Oil & Gas Location Assessment and have the following comment.

In the Facilities section you have indicated there will be 8 temporary water tanks on this Oil & Gas Location. However, your Facility Layout Drawing does not show where these 8 temporary water tanks will be placed. Please revise the Facility Layout Drawing to show these temporary water tanks.

Please respond to this correspondence by December 10, 2016. If you have any questions, please contact me. Thank you.

Venessa,

The LACT Unit is shown in the area that is going to be interim reclaimed. Will it be temporary too?

That little area will not be reclaimed as the LACT will be permanent.
