

Photo 1. View of the project area from the southeastern corner facing center.

Photo 2. View of the eastern portion of the project area from the southeastern corner facing northward. Vegetation is largely comprised of cheatgrass (*Bromus tectorum*) and mullein (*Mullein verbascum*) as well as rubber rabbitbrush (*Chrysothamnus nauseosus*).

Photo 3. View of the southern portion of the project area from the southeastern corner facing westward.

Photo 4. View of musk thistles (*Carduus nutans*) that appear to have been treated.
