Randy,

The sampling plan is approved. I am sorry for the miscommunication. I considered this a response to our COA's from last week. Please proceed, previous COA's still apply.

- TPH samples shall include DRO and GRO (at a minimum)
- Guidance for all sample locations should be taken from rule 910.b(3)B
- Work plan is approved; however additional information and remediation may be required during the course of investigation and remediation.

Kris,

Just wanted to touch base with you and see if you had any comments on the sampling plan for the 4B location of the Chivington 1 remediation.

Thanks,

**Randy Edelen, P. E.**

**Subject:** Revised Chivington 1 4B Pit Sampling Plan

Kris,

I missed areas on the original 4B sampling plan. Here is a revised plan which includes samples to delineate the boundaries of the 4B area. The original 5 locations have remained unchanged.

Please do not hesitate to contact me if you have any questions or I can help you meet your goals.

Thanks and have a happy Thanksgiving,

Randy Edelen, P. E.

Randy,

Attached is our response to amendment of Project 8333.

I would like to add a reference point to the map, in the spirit of not delaying the project please consider my response attached and proceed.

Thank You,

Kris Neidel
