**COGCC Comments**

Comment	User	Date
Submit Form 4 when corrective actions are completed. Include photographs or other documentation showing completion of corrective actions required in this inspection.	CostaR	12/06/2016
Recommend recontouring the location to decrease the grade of the cut and fill slopes. This would reduce the susceptibility for erosion and can enhance the establishment of vegetation to achieve long term stabilization.	CostaR	12/06/2016
