### **Best Management Practices**

#### **No BMP/COA Type**

#### **Description**

1	Planning	The nearest building unit is located more than 5,280' away from this oil and gas location, therefore it is not within a Designated Setback Location and is exempt from 604.c.
2	Planning	KMG has entered into a Memorandum of Understanding ("MOU") with Adams County.
3	Drilling/Completion Operations	Kerr-McGee acknowledges and will comply with the COGCC Policy for Bradenhead Monitoring during Hydraulic Fracturing Treatments in the Greater Wattenberg Area dated May 29, 2012.
4	Drilling/Completion Operations	Kerr-McGee will perform an anti-collision evaluation of all active (producing, shut in, or temporarily abandoned) offset wellbores that have the potential of being within one hundred fifty (150) feet of a proposed well prior to drilling operations for the proposed well. Notice shall be given to all offset operators within one hundred fifty (150) feet prior to drilling.
5	Drilling/Completion Operations	Open-hole Resistivity Log with Gamma Ray Log will be run from the kick-off point into the surface casing. A Cement Bond Log with Gamma Ray will be run on production casing, or on intermediate casing if a production liner is run. The horizontal portion of the wellbore will be logged with a measured-while-drilling gamma ray log. The Form 5, Completion Report, will list all logs run and have those logs attached.
