Inspection Document #: 672500237

Complainant: Vallee Johnson Phone:

Address: 325 Anderson CT, Erie Co 80516

Nature of complaint: Noise/Lighting/Odor

Field Inspector Actions:

On 12-12-2016, I was contacted by Dave Kulman Deputy Director of the COGCC in reference to a complaint at the residence of the complainant Vallee Johnson 325 Anderson Ct, Erie Colorado.

The complaint indicated in her complaint she was experiencing noise, odor and lighting issues coming from the Erie Champlin 18-9 location. The complainant indicated a whirring noise was coming from the location and she had experienced a strong smell coming from location as well as at night time the lights from location were shining into her home.

I performed a complete site inspection at locations. At the time of inspection, I observed an Ensign pulling unit performing a re-entry operation at the location under the direction of Crestone operations. During my inspection I observed approx. 4 light stands at location with several of the lights point up toward the derrick of the rig. At the time of the inspection the lights were not in use.

I also performed a sound study to the south of the location toward the complainant's home approx. 350' from the source of the sound on location. See inspection Doc #672500237 for attached photos of lighting at location and attached sound study and thermal imagery of location for VOC's. At the time of inspection no odor issues were detected and no VOC's were visible in thermal imagery. The potential Odor issues stated in this complaint were turned over to CDPHE for further investigation.

At the time of inspection, I observed a potential violation of rule 803 of COGCC rules which were indicated in the complaints.

I Contacted Crestone personnel Tarah Garza and notified her of inspections issues with BMP's, I also spoke with Kelvin Edsall consultant for Crestone and advised him of the complaints and the light issues I observed on location. Both parties I contacted indicated they would attempt to get the issues resolved ASAP.

Corrective Action: **"Comply with the lighting requirements in Rule 803."**

Date: 12/13/2016

**Workover**
