General Comment:

COGCC Inspector met with KPK personnel on location and conducted an engineering integrity inspection with a primary focus on the flowlines associated with this well. Flowline repair/ construction work was in progress at the time of this field inspection. Details are available in the flowline section of this report. Photo's uploaded can be accessed via link(s) at end of report.

COGCC Rules (check all that apply)

☐ 1101. Installation and Reclamation ☐ 1102. Operations, Maintenance, and Repair ☐ 1103. Abandonment

Comment: Based on communications with KPK personnel on site: A segment of the well site flowline (wellhead to a valve set riser/ approximately 250' NW of wellhead) is being abandoned. The flowline is being re-routed (new construction) to a tie in point approximately 200' west of the wellhead. An excavation has exposed the existing flowline. The flowline (4" Carbon Steel) has been cut (observed) at the new tie in point. Note: Document all flowline repairs/ replacement(s) completed and perform flowline pressure testing (confirm integrity of all flowlines and repairs completed/ retain chart & data) prior to returning flowlines to service. Also, complete flowline abandonment(s) per COGCC 1103 rule and remove all unused equipment associated with the abandoned section(s) of flowline (flowline riser/ valve set).

Corrective Action: _____ Date: _____

COGCC Comments

Comment	User	Date
1103. ABANDONMENT Each pipeline abandoned in place shall be disconnected from all sources and supplies of natural gas and petroleum, purged of liquid hydrocarbons, depleted to atmospheric pressure, and cut off three (3) feet below ground surface, or the depth of the pipeline, whichever is less and sealed at the ends. This requirement shall also apply to compressor or gas plant feeder pipelines upon decommissioning or closure of a portion or all of a compressor station or gas plant. Notice of such abandonment shall be filed with the Commission and with the local governmental designee or local government jurisdiction.	maclarej	12/13/2016
