B. Expedition owns and operates Class II and Class I saltwater disposal wells in Colorado and Wyoming, primarily for the service of oil and gas operators.

C. Expedition is under contract with Owner to purchase the Property. Closing on the sale is conditioned on receiving the necessary state and local permits for Expedition to own and operate a saltwater disposal facility and two Class II saltwater disposal wells.

D. Expedition and Owner seek to enter into this Surface Use Agreement, thereby allowing Expedition to permit two Class II saltwater disposal wells and a corresponding saltwater disposal facility with the relevant regulatory authorities, *provided*, that Expedition shall not have the authority to build or operate said facilities until Expedition closes on the purchase of the Property from owner.

AGREEMENT

NOW, THEREFORE, in consideration of [REDACTED] dollars and other valuable consideration, the covenants made in this Agreement and the mutual benefits to be derived therefrom, the receipt and sufficiency of which are hereby confessed and acknowledged, the Parties agree as follows:

Section 1. Term. This Agreement, and the rights and benefits granted and created herein shall be effective as of the Effective Date and shall be binding until the first to occur of: (i) the termination of the Purchase and Sale Agreement between Owner and Expedition (the "Contract") or (ii) the conveyance of the Property to Expedition pursuant to the Contract.

Section 2. Grant of Surface Use. Owner hereby grants to Expedition, the right to permit two Class II saltwater disposal wells and related saltwater disposal facilities on the Property (the "EWS #4"). This grant of surface use is solely and explicitly a right to permit the EWS #4, and all construction and operation of the EWS #4 shall only commence if and after Expedition closes on the purchase of the Property from the Owner. This Agreement is not intended to grant unto Expedition any rights to use or occupy the surface or subsurface of the Property unless and until Expedition closes on the Property. Expedition shall be responsible for all processing and costs necessary to obtain such permitting. Owner agrees to cooperate fully with Expedition at no material

cost to Owner during this process. Under no circumstances shall any permits create any financial obligations upon Owner or the Property.

Section 3. Indemnification of Owner. Expedition shall keep the Property free and clear of any liens, including but not limited to mechanic's liens and materialmen's liens, and will indemnify, defend, and hold Owner harmless from all claims and liabilities including reasonable attorneys' fees asserted against Owner as result of the permitting efforts by Expedition, its agents, employees, or representatives. The indemnification obligations of this Section shall survive the termination of the Contract.

Section 4. Non-Merger and Termination. The rights and responsibilities set forth in this Agreement in no way amend or supersede the Contract provided, however, that this Agreement shall terminate and be of no further force and effect upon the termination of the Contract.

The Parties further expressly acknowledge and agree that jurisdiction and venue for any actions arising out of or in connection with this Agreement and the Easement shall be in District Court, in the County of Weld, State of Colorado. In any civil litigation arising out of this Agreement and the Easement, trial shall be to the Court and each Party waives all rights to trial by jury. Each Party acknowledges and represents that it makes this waiver knowingly, voluntarily, and intentionally and after careful consideration of the ramifications of this waiver with legal counsel.

Section 6. Assignment. This Agreement and the rights granted herein shall not be assignable by either Party.

Section 7. Entire Agreement. This Agreement, together with exhibit attached hereto, contains the entire agreement between the Parties with respect to its subject matter. No oral statement or prior written matter shall have any force or effect.
