Tim Linch

Whiting Petroleum Corporation

1450 East Main Street Box 33

Vernal, UT 84078

As per my conversation with John Hill regarding the Reclamation of Hill 6-6 Northern entrance road into the location BLM has requested the first quarter of the road to be ripped and re-seeded and barricaded off from the main gravel road. The location is located in Rio Blanco County, API # 05-103-07997.

Per our conversation, Mr. Hill would like us to go ahead and rip the northern road from where BLM property stops and his starts to the location and fertilize and re-seed with a drought tolerant feed grass, such as Russian rye.

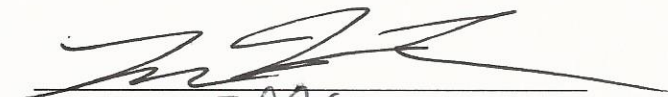

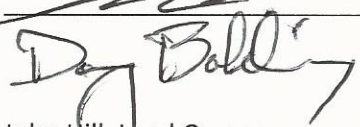

Please see attached map, Reclamation area drawn in red.

After initial reclamation, landowner will be responsible for any further reclamation and maintenance.

This is an agreement between the Operator, Whiting Oil and Gas and Land Owner, John Hill

Tim Linch, Representative Whiting Oil and Gas
