Permit	Spacing order doesn't create a unit, therefore I removed the distance to unit boundary of 672' as well as the unit acreage and unit description. Operator agrees with changes. Final review complete.	01/04/2017
Permit	There is no change in the waste management program from the original approved form 2A and 2.	12/29/2016
Engineer	Offset water well check: COGCC evaluated offset water wells within one mile of this proposed well's surface hole location. This information was used in addition to locally-available geophysical logs and hydrogeologic information to evaluate the adequacy of the operator's proposed surface casing setting depth. The deepest water well within one mile is 130 feet.  Offset Well Evaluation: Existing offset oil and gas wells within 1,500 feet of this wellbore meet standards. No mitigation required.	11/04/2016
Permit	Corrected distance to lease line from 810' to "0" with operator approval. SHL is in different federal lease than BHL. Form passes completeness.	11/02/2016
