Operator Comments:

Kris Neidel,
Attached is the completed Form 27 and multiple attachments that meet the requirements listed in DOC 401156797. Additionally, this update to the Form 27 meets the requirement to update COGCC monthly by the first of each month. I tried to break up the attachments into sections that fit the descriptions in the attachments section for your convenience so that it is not all one large attachment. I also input the two related forms you requested be input for all communications associated with this release, and put the facility ID number in for the location rather than the closest well API associated with the flowline.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
