General Comment:

Follow up inspection of API #123-19789. COGCC Engineer met Crestone and Well Whisper llc. on site to evaluate fluid level in surface casing (#2 annulus). Bradenhead read 0.5 psi at the surface and breathed a whisper that dropped to zero in a second or two when opened. Previous "Action Required" on doc #679600038 to verify bradenhead is open has been met.
