RE: Rule 306.e. Meetings with Building Unit Owners within a Buffer Zone Setback.

Ag 26-32 Pad: NENE-Section 32-T6N-R66W  
Dear Mr. Lepore,

Synergy Resources Corporation (Synergy) hereby certifies that it has complied with Rule 306.e, which states that an Operator shall be available to meet with building unit owners who received an OGLA notice or a buffer zone notice pursuant to Rule 305.c. and requested a meeting regarding the proposed oil and gas location. The operator sent notices pursuant to Rule 305.c, and received requests for a meeting.

On September 9, 2016, Synergy Resources Corporation met with Joseph & Helen Lohnes & Kim Davis. The discussion centered around Synergy's planned mitigation measures which we've agreed as follows-

- Install temporary sound walls around the operations area during drilling and completions operations
- Use dust suppression tactics for roadways
- Remove existing AG facilities and wells
- Provide gate at the entrance

Kim Davis

Greeley, CO 80631

On October 3, 2016, Synergy Resources Corporation met with Troy Swain, Kelly Cannon and Amanda Cannon. After numerous conversations with both Cannon's and consent from the surface owner, Aggregate Industries-WCR, Inc., Synergy has agreed to place 15-20 trees on the west side of the facility after completion/installation of the production facility and wells. In addition to the trees, Synergy plans to place a temporary sound wall around the Operations Area during drilling and completion operations as well as a permanent sound wall around the compressors at the production facility.

Greeley, Colorado 80631

On January 25, 2017, Synergy spoke with John D. Sewell about our planned operations and interim reclamation plan. Synergy has agreed to place trees on the NE corner of the facility, during our interim reclamation period.

Synergy respectfully requests that the Director approve the wells.

Thank you,

*Erin Ekblad*
