The surface location of HRM's proposed wells have been staked outside of the Colorado Oil & Gas Conservation Commission (COGCC) Rule 318A.a. Greater Wattenberg Area (GWA) Drilling Windows and are being permitted as exception locations. HRM is requesting these exception locations because HRM has negotiated a Surface Use Agreement with the surface owner to locate the wells outside of the GWA drilling windows (see redacted Surface Use Agreement, attached to permit).

HRM respectfully requests the COGCC review the enclosed information and approve the requested exception location request and Application for Permit to Drill for the wells on the subject pad.

Respectfully,

Paul Gottlob
