General Comment:

FIR - Citations from FIR Doc# 664001034, 678200168 & 663300137 & 664001034 referenced in FIR Doc#680301582. CA dates from previous FIR describing remaining compliance observations are dated per earliest date of CA. COGCC database scoutcard shows PR status, well has been SI since May 2013. Update status of well on COGCC database by Operator of record. Well is tied to Michaels (1) battery and PW pit. See previous FIR's for CA date references.

FIR Doc# 664001034 06/10/2013 cited requirement to MIT or Plug this well, cites pump jack as dismantled unused equipment, production records show SI status with (8) bbls. produced without use of pump jack in service. FIR and production records indicate last date of production May 2013. No MIT on COGCC database records or well scout card. Contact COGCC Engineering Supervisor Diana Burn immediately after receipt of this FIR for directives.

Inspected Facilities

Facility ID: 288510 Type: WELL API Number: 075-09361 Status: PR Insp. Status: SI

Idle Well

Purpose: Shut In Temporarily Abandoned Reminder: _____

Comment: Attention COGCC Engineering Group Supervisor- Diana Burn per concerns about production reports and MIT requirement.
 Operator Note: Please contact Diana Burn @ COGCC Engineering for directives
 Please contact John Axelson @ COGCC Environmental for directives

COGCC database shows well status PR. Well has been shut-in since 2013. Operator is required to update well status. MIT was required per FIR Doc# 664001034 dated 6/10/2013. FIR Doc# 664001034 06/10/2013 cites dismantled pump jack removal and production records show last production status PR in April 2013. Production report continues from May 2013 thru March 2014 with pump jack dismantled and out of service - required to be removed by FIR Doc#664001034.

Corrective Action: Contact COGCC Engineering Group Supervisor Diana Burn for directives. Contact COGCC Environmental Group Supervisor for directives.
