Complaint

Comment:

Complaint #:200441074

Field Inspector Assigned: Jeff Rickard

Well Number: 05-123-15598

Inspection Document #:674103930

Nature of complaint: Noise, Odor, Dust

If Sound GPS Coordinates of Survey Location:NA

Inspection Observations:

An inspection of the above location was conducted with focus on noise, odor and dust. It was observed that Anadarko is upgrading/replacing the battery at the location. The old equipment is being hauled out and new equipment is being hauled in. The new equipment includes Tanks, Separators, and ECD's. OGCC inspector did observe dust coming from lease road when trucks drove on it, but did not observe any rule violations related to maintenance or storm water of the access road or location. The nearest NOAA weather station recorded wind gusts of 71mph today and winds still continue to be high which accounts for the dust being kicked up. No odors were observed by OGCC staff at time of inspection.

18A DOC#200441076

Corrective Action:

Date:

Idle WellPurpose: ☐ Shut In ☒ Temporarily Abandoned

Reminder: _____

Comment: TA

Corrective Action:

Date: _____
