449150	SPILL OR RELEASE	AC	02/08/2017		-	Tallman Farms A Tank Battery	EI

General Comment:

This is an environmental inspection to document status of Spill # 449150 at the Tallman Farms A tank battery. Spill occurred on heater treater and was confined to secondary containment. A small excavation inside secondary containment indicated that the base of the containment was composed of coarse to medium grained sand and appeared to be permeable (see attached photos). Confirmation samples need to be obtained by operator to delineate extent of spill and ensure remaining soils are compliant with COGCC Table 910-1.
