Dear Mr. Will,

Prior to commencing completion operations on the Will Trust CW2 Pad, the Colorado Oil and Gas Conservation Commission ("COGCC") is requiring BBC to re-plug the Carl Will #1 Well (API No. 02-123-05236) (the "Well"). The Well was previously abandoned by Inland Drilling Company in 1959 and is located on surface owned by you according to applicable records. The COGCC policy requires BBC to obtain the consent of the surface owner for the operation either through the existence of a surface use agreement or a specific consent if there is not an applicable surface use agreement. In the case of the Well, there is no applicable surface use agreement. Therefore, BBC is requesting your written consent to the re-plugging operation for the Well.

In addition and pursuant to rules 305.f.(4) and 305 f. (6) of the COGCC rules governing subsequent operations well operations, BBC hereby gives its seven (7) day notice before use of heavy equipment in connection with the re-plugging operation for the Well and its thirty (30) day notice of final reclamation operations to follow the re-plugging and abandonment of the Well.

BBC anticipates commencing the re-plugging operation for the Well as early as February 15, 2017 and anticipates being on location for approximately 5-10 days, weather permitting. If you request, a representative from BBC will be available to meet and consult with you in connection with the re-plugging operation. If you prefer, you can appoint an agent by providing BBC with the name, address and phone number of the agent.

If you elect not to consent to the re-plugging operation, BBC is to contact the COGCC. Please provide your consent to the re-plugging operation by signing in the space below and returning it
