1	<p>There is a large prairie dog town located in the SW 1/4 of Section 21, which is potential burrowing owl nesting habitat. The burrowing owl is currently listed as a state threatened species. Should initial site disturbance occur within a prairie</p> <p>dog town during the owls nesting season (March 15 to October 31), CPW recommends that the operator conduct a burrowing owl survey immediately prior to initial site disturbance. One survey consists of three site visits each separated by a week.</p> <p>Burrowing Owl Survey Protocol - https://cpw.state.co.us/Documents/WildlifeSpecies/LivingWithWildlife/RecommendedSurveyOwls.pdf</p> <p>Feel free to contact me with any questions.</p>	02/15/2017
