Tim Linch

Whiting Petroleum Corporation

1450 East Main Street Box 33

Vernal, UT 84078

As per my conversation with John Hill regarding the Reclamation of Hill 11-6 that Whiting has recently abandoned. The location is located in Rio Blanco County, API # 05-103-08023.

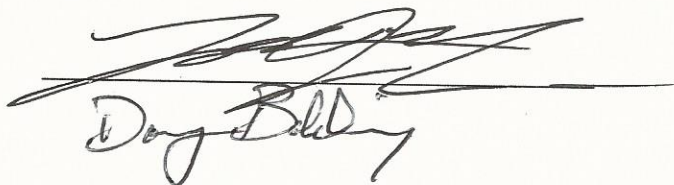

Per our conversation, Mr. Hill would like to leave the existing outer berm, rip the location, fertilize and re-seed with a drought tolerant feed grass. As for the road entering the location, and the loop road, it is to be done the same as the location out to the main dirt road. I am including a map of the location and road to be reclaimed. No re-sloping is required.

After the initial reclamation is complete the landowner will assume responsibility for any further reclamation and maintenance.

This is an agreement between the Operator, Whiting Oil and Gas and Land Owner, John Hill
