A large, silver, cylindrical industrial tank stands in a flat, arid desert landscape under a clear blue sky. The tank is partially buried in a mound of sand. To its right, a metal staircase with railings leads up to a platform on top of the tank. In the background, several other similar tanks are visible, receding into the distance. A yellow container sits on the ground near the base of the main tank. The ground is dry and sandy, with some sparse, low-lying vegetation.
