Here are the distances to above ground utilities for the Razor 30L. The closest OHP is near the SW corner of the Razor 30K pad disturbance.

Production facilities 1277'

30L-1901	1061
30L-1934	1032
30L-1902	1005
30L-1935	977
30L-1903	947
30L-1936	922
30L-1904	895
30L-3101	1080
30L-3134	1051
30L-3102	1025
30L-3135	996
30L-3103	971
30L-3136	942
30L-3104	915

The Razor 30 Production OHP distance should be 1150' the 1688' was to a different OHP.

The Razor 30K OHP distances are 362' from 30K-19 wells and 412' from 30K-31 wells.

Thanks,  
Michael L. Brown
