CORRECTIVE ACTIONS:

1 CA# 68582

Corrective Action: Shrink Location for Interim Reclamation as per COGCC 1003 Series Rules. Install Reclamation in Areas no longer needed for Use, Production, Drilling or Subsequent Operations. Install appropriate BMPs to Stabilize Areas until Vegetation establishes. Reclamation Activities should be complete by 6/15/2017.

Date: 06/15/2017

Response: FACTUAL REVIEW REQUEST

Basis for Review: Action requested was already completed prior to the inspection

Operator Comment: Inspector does not elaborate as to the significance of "volunteer vegetation". Laramie believes vegetation is part of overall reclamation regardless of whether it is "volunteer" or not. Request for interim reclaim inspection was made in 2015, photographs submitted at that time reflected appropriate reclaim. Interim Reclaim is complete.

COGCC Decision: **Not Approved**

COGCC Representative:

COGCC Supervisor: Location has not been reduced to areas only needed for production. Areas were identified on the inspection indicating where recontouring and reseeding was required. Interim reclamation is not complete reclamation, standards have not been met.

#### OPERATOR COMMENT AND SUBMITTAL

Comment: Inspector does not elaborate as to the significance of "volunteer vegetation". Laramie believes vegetation is part of overall reclamation regardless of whether it is "volunteer" or not. Request for interim reclaim inspection was made in 2015, photographs submitted at that time reflected appropriate reclaim. Interim Reclaim is complete.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
