Site Investigation and Remediation Workplan (Initial Form)

This form shall be submitted to the Director for approval prior to the initiation of site investigation and remediation activities. However, this shall not preclude the Operator from taking immediate action to protect public health or safety, the environment, wildlife, or livestock.

This Form 27 describes site conditions as currently understood by the Operator; approval of this Form 27 by COGCC is based on the site conditions accurately described herein; any changes in site conditions identified during or subsequent to the performance of the approved workplan may necessitate additional investigation or remediation which shall be described on a supplemental Form 27. This Form 27 is intended to provide basic information regarding the proposed site investigation and remediation actions, but the workplan may be more fully described in attached documentation.

Refer to Rules 340, 905, 906, 907, 908, 909, and 910

OPERATOR COMMENT

Original Form 27 and approved BLM sundry (attached) were submitted to the COGCC in 2012, with attached soil samples. Samples met minimum requirements. Due to lack of response from COGCC when samples and original Form 27 were submitted, Wexpro Company backfilled the pit. Wexpro Company requests closure and NFA of Facility #100689. Reclamation dates on implementation schedule are estimates, actual dates are unknown.

I hereby certify all statements made in this form are to the best of my knowledge true, correct, and complete.
