OTHER CHANGES

☐ **REMOVE FROM SURFACE BOND** Signed surface use agreement is a required attachment

☐ **CHANGE OF WELL, FACILITY OR OIL & GAS LOCATION NAME OR NUMBER**

From: Name CHEVRON Number O06 696 Effective Date: _____

To: Name _____ Number _____

☐ **ABANDON PERMIT: Permit can only be abandoned if the permitted operation has NOT been conducted. Field inspection will be conducted to verify site status.**

☐ WELL: Abandon Application for Permit-to-Drill (Form2) – Well API Number _____ has not been drilled.

☐ PIT: Abandon Earthen Pit Permit (Form 15) – COGCC Pit Facility ID Number _____ has not been constructed (Permitted and constructed pit requires closure per Rule 905)

☐ CENTRALIZED E&P WASTE MANAGEMENT FACILITY: Abandon Centralized E&P Waste Management Facility Permit (Form 28) – Facility ID Number _____ has not been constructed (Constructed facility requires closure per Rule 908)

OIL & GAS LOCATION ID Number: _____

☐ Abandon Oil & Gas Location Assessment (Form 2A) – Location has not been constructed and site will not be used in the future.

☐ Keep Oil & Gas Location Assessment (Form 2A) active until expiration date. This site will be used in the future.

Surface disturbance from Oil and Gas Operations must be reclaimed per Rule 1003 and Rule 1004.

☐ **REQUEST FOR CONFIDENTIAL STATUS**

☐ **DIGITAL WELL LOG UPLOAD**

☐ **DOCUMENTS SUBMITTED** Purpose of Submission: _____

RECLAMATION

INTERIM RECLAMATION

☐ Interim Reclamation will commence approximately _____

Per Rule 1003.e.(3) operator shall submit Sundry Notice reporting interim reclamation is complete and site is ready for inspection when vegetation reaches 80% coverage.

☐ Interim reclamation complete, site ready for inspection.

Per Rule 1003.e(3) describe interim reclamation procedure in Comments below or provide as an attachment and attach required location photographs.

Field inspection will be conducted to document Rule 1003.e. compliance

FINAL RECLAMATION

☐ Final Reclamation will commence approximately _____

Per Rule 1004.c.(4) operator shall submit Sundry Notice reporting final reclamation is complete and site is ready for inspection when vegetation reaches 80% coverage.

☐ Final reclamation complete, site ready for inspection. Per Rule 1004.c(4) describe final reclamation procedure in Comments below or provide as an attachment.

Field inspection will be conducted to document Rule 1004.c. compliance

COMMENTS:

[see attachment for actual letter]

Dear Mr. Lepore:

As part of its Chapter 11 Bankruptcy emergence, LINN Operating, Inc. (LINN) will separate all of the Colorado assets that it gained when it acquired Berry Petroleum Company LLC (10091) in June 2014. Currently, the effective date of Change of Operator is set for 5/1/2017. Therefore, LINN requests a Rule 502.b(1) variance to extend the performance requirement of the March 1, 2017 date set forth in the Notice to Operators: Procedures for Preset Conductors to September 1, 2017 for the following reasons:

1. To allow time for the new operator of record to transition all of the properties, records and systems, and then to evaluate its assets and decide for itself how to best proceed.
2. Due to the climate and elevations of most of the properties, the earliest that an operator could access the properties to perform plugging/reclamation work, IF that is the route that is chosen, would minimally be May 1, 2017.

There are 28 locations with 1 or more pre-set conductors located in Garfield County that were all in existence at the time this NTO was issued on September 1, 2016. Attached is the information about each location.

Pushing back the performance requirement date to September will not violate the basic intent of the Oil and Gas Conservation Act. We are minimizing the chances of creating a greater disturbance of the environment and wildlife if we reclaimed all of the affected locations before the new operator has the opportunity to review, because there is the potential for them to have to re-permit and re-build the locations in order to drill. This could potentially double the environmental impact to the area unnecessarily.

Furthermore, LINN certifies that the new operator has been made aware of the requirements of the NTO and the variance request. If you have any questions, please feel free to contact me at (281) 840-4375 or mfooster@linnenergy.com.

H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: _____ in ppm (parts per million) Date of Measurement or Sample Collection _____

Description of Sample Point:

Absolute Open Flow Potential _____ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: _____

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public use: _____

Based on the information provided herein, this Sundry Notice (Form 4) complies with COGCC Rules and applicable orders and is hereby approved.

COGCC Approved:  Date: 3/31/2017

CONDITIONS OF APPROVAL, IF ANY:**COA Type****Description**

	The operator-of-record of this location is subject to the September 1, 2017 extended deadline granted by this variance to comply with the March 1, 2017 requirements of the COGCC Notice to Operators: Procedure for Preset Conductors (rev October 6, 2016) to have performed one of the following options: (1) plug the conductors and perform reclamation, (2) request to keep the conductors and provide additional financial assurance, or (3) submit a Rule 502.b variance for an alternative plan.
