COMMENTS:

We would like to utilize the existing soil bins at our Unocal 4 pad location for temporary storage of soils collected during general housekeeping operations and solid exploration and production (E&P) waste as defined in the 100 Series Rules. This location has already been approved for temporary storage of wellbore sand and impacted soil collected with hydrovac equipment during subsurface line locates through two COGCC-approved Form 4 Waste Management Plans (WMP) (COGCC Document ID 400768403 and 401023284). All procedures approved under those WMP will be followed for the safe hauling, storage, and permanent disposal of these waste streams.
