Comment:

Corrective Action: Corrective actions from the previously mentioned FIR were not fully performed. Debris has been removed from location but a portion of the tank battery location remains in the same condition, gravel remains at location, and does not appear reclamation activities have been performed. Form 4 Document # 401100141 provided by the Operator on August 30, 2016 stated the tank battery area and wellhead access road north of the battery will be re-contoured, re-seeded and crimped with straw to minimize erosion by the end of October 2016. Also, it was reported that gravel was removed.		Date 08/15/2016
