

MOFFAT COUNTY Assessor

May 18, 2017

Re: Mineral Mapping

To Whom It May Concern:

On behalf of Lyster Oil, I am confirming that we, in the Assessor's office do not have an electronic version of a mineral map that we can provide to show the specific mineral tracts. We only have our original mineral books that have been scanned into the computers that we can screen shot areas of the book as needed. Our records show that there are no severed mineral owners within a quarter mile of the 05-081-06837 site that is located in the NWSE of Section 30 in Township 5 North, Range 98 West. The BLM owns all of the minerals in that area.

Please contact me if you have any questions or if you need any further verification of the addressed matters at hand.

Thank you,

Mrs. Loy Jones
