Operator
Comment:

As noted by the COGCC inspector, Ditch is considered a BMP according to CDPHE criteria and as such the ditch is being utilized in accordance with Good Engineering Practices. Inspector implies the ditch is "filled", this is inaccurate and is not reflected in any photographs. The ditch is functioning to prevent soil migration to the field. Laramie staff and contractors are monitoring this BMP and maintaining it to assure it is functioning properly. No evidence of soil migration outside the ditch in any photographs provided by Inspector. Construction activity and BMP installation/maintenance is ongoing.

COGCC Decision: **Not Approved**

COGCC Representative: If constructed properly Ditches are an accepted SW BMP but must be constructed specifically for SW Control. An Irrigation ditch is an unacceptable SW control and must be protected from potential SW. Photos were provided that showed blockage of Irrigation ditch (being used as SW BMP). This FIRR has been submitted to report CAs complete, not to dispute CAs. This appears to be a dispute and this form is not for that process.

2  CA# 70889

Corrective Action: Install sufficient BMPs in accordance with Good Engineering Practices. CA Dates given, remain at Dates from Previous Inspection.

Date: 03/09/2017

Response: CA COMPLETED

Date of Completion: 04/12/2017

Operator Comment: Statements and photographs submitted by the inspector do not accurately reflect the adequacy of the BMPs. Existing BMPs have been chosen and installed in accordance with Good Engineering Practices. Laramie staff is aware of the condition of the fill slope and additional BMPs will be implemented as construction activity is completed.

COGCC Decision: **Not Approved**

COGCC Representative: BMPs are not sufficient nor in accordance with Good Engineering Practices. This FIRR has been submitted to report CAs complete, not to dispute CAs. This appears to be a dispute and this form is not for that process.

OPERATOR COMMENT AND SUBMITTAL

Comment: BMPs are sufficient and have been implemented/installed according to Good Engineering Practices.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
