General Comment:

[This is an interim reclamation and stormwater inspection. Any corrective actions not addressed from previous inspections are still applicable.](#)

Reclamation - Storm Water - Pit**Interim Reclamation:**

Date Interim Reclamation Started: _____ Date Interim Reclamation Completed: _____

Land Use: _____

Comment: Project area is surrounded by dry grassland. Per onsite conversation Tami Knight, new stormwater controls were recently installed and re-seeding in the southern portion of the project area occurred in spring 2017. Revegetation in the remaining portions of the project area appears to be progressing but still appears sparse in the northern and eastern portions. This should be monitored and re-seeded if vegetative cover is not increasing.

1002 SITE PREPARATION AND STABILIZATION
