Fail

Well Release on Active Location Multi-Well Location **COGCC Comments**

Comment	User	Date
All disturbed areas must be recontoured, properly decompacted, have an adequate seedbed prepared, and then seeded with a seed mixture that matches the adjacent vegetation or a seed mixture requested by the landowner. After seeding erosion controls must be implemented that stabilizes the seeded soil, e.g. a type of mulch.	CostaR	04/18/2017
