Dear Operator,

Extraction Oil & Gas, LLC (Extraction) is applying to the Colorado Oil and Gas Conversation Commission (COGCC) to drill the above referenced well at the described surface and bottom hole locations. Per COGCC Rule 317.s., no horizontal wellbore lateral shall be located less than one hundred fifty (150) feet from any existing or permitted oil or gas wellbore unless waived in writing by the operator of the encroached upon well. As currently planned, the horizontal wellbore lateral of the above well will lie within 150 feet of the wellbores of the captioned wells:

Leonard 3-21J, API #05- 123-11400, operated by Crestone Peak Resources Operating LLC, Closest distance: 56' feet  
Leonard 4-21J, API #05 -123-11402, operated by Crestone Peak Resources Operating LLC, Closest distance: 103' feet

Per COGCC Rules, Extraction is required to get the offset well operator's approval in writing and a waiver of said Rule 317.s. The well is planned as above to maximize mineral recovery. Also enclosed is a Well Location Plat that shows the planned wellbore.

Should you find this acceptable please indicate so by signing the below section and returning the signed letter either via email to [aandrews@extractionog.com](mailto:aandrews@extractionog.com) or by mail. Please contact the undersigned at 720-481-2379 with any questions.
