**OPERATOR COMMENT**

Wexpro Company is requesting closure and NFA of facility 116566 and Remediation Project #9239. Site investigation conclusion is that the pit must have been closed prior to 1997 (please see attachment) are not subject to 900 series rules. See attached Google Earth imagery from 1993 and 2005 showing no surface evidence of pit, except pit 11356 (BW Musser 7 pit, Wexpro Company is currently working with COGCC to close this pit). Also attached is COGCC database search showing that no "field compressor" is present in SWSE-4-11N-97W, as indicated by title given to pit and COGCC data. Wexpro Company is requesting closure and NFA of facility 116566 and Remediation Project #9239.

I hereby certify all statements made in this form are to the best of my knowledge true, correct, and complete.

Environmental	Request for closure of facility 116566 is denied at this time.	04/20/2017
Environmental	please investigate the pit at facility 441235 referenced in this document and respond on a eForm 27.	04/20/2017
Environmental	It is suspected that this pit was associated with the compressor station, Facility 441235, in powder wash. It appears that there was two pits at this location; pit facility 100351 and a pit that existed at lat/long 40.943087,-108.297499.It appears this pit was closed sometime between 2014 and 2016.	04/20/2017
