OPERATOR COMMENT

Wexpro Company cannot find any documentation in our well files, historic Google Earth imagery, or site diagrams that more than one pit ever existed on the Carl Allen 2 well pad. I've attached historic Google Earth imagery from 2006 showing one pit on location (facility 100664, Wexpro Company is currently working with COGCC to close this pit). Also attached is a site security diagram of the Carl Allen 2 well pad from 2002 showing one pit as well (100664). I believe that this pit, 100666, was a duplicate created in error. Wexpro Company requests closure and NFA of facility 100666.

I hereby certify all statements made in this form are to the best of my knowledge true, correct, and complete.
