**General Comment:**

Site visit conducted on 04/20/2017 in response to a complaint #200441313 by Mr. Jose Rodriguez, a homeowner. Mr. Rodriguez home is about 700 feet east of the closest well on Encana Location ID #335102.

1) On site: Carlos Lujan and Craig Burger from COGCC, and Dusting Held from LTE. We went to Mr. Rodriguez house to take samples from his water well and to talk to him. During conversation with Mr. Jose Rodriguez, he clarified that his family uses the water from the well to shower, to wash dishes and for laundry, and to clean the house but not for drinking. They don't grow vegetables and have no farm animals (other than a horse). The three daughters are under medication for different issues, apparently all of neurologic origin (the oldest: epilepsy episodes started about 2 1/2 years ago, the youngest, 5 years old, gets paralyzed and turns her eyes up since last year, and the second, about 12 years old, started having hallucinations 3 months ago. Water from the well did not have any odor, although Mr. Rodriguez says that some times it smells like rotten eggs. No bubbling in the water was observed. Water well is about 75 feet west of the house. EnCana pad is about 600 feet west of the water well.

2) Site visit to EnCana pad Location ID #335102. No stainings observed on the ground or any indication of spill/releases; Bradenhead pressure "zero" in all wells; no odor detected; no weeds, junk, pipes, parts, etc. on premises. Good housekeeping and clean site.

Comment	User	Date
Lab results from Mr. Rodriguez water well will be available in a week approximately. Further investigation will be required if results indicate potential impact from Oil & Gas activities. If no indication of groundwater impact is found, complaint No. 200441313 will be closed.	lujanc	04/26/2017
