Comment	The project area is infested with hundreds of musk thistles. Additionally approximately 50 houndstongue are growing within the project area.
Corrective Action	Control weeds at the appropriate time but no later than June 15, 2017. Due to the extent of the infestation, it is likely that multiple controls will be needed and followup re-seeding may be needed if desirable vegetation is damaged. If herbicide is used, special care or products may be needed due to the locations proximity to open water.
