Carlos – attached is the pit bottom lab results for the F06 696 pad. Samples were taken in each of the 4 walls of the pit and from the bottom of the pit. Shall I submit them to you via e-form 27? Thanks, Tom

Tom

Another one pending is the F-06 Pit Closure Form 27 REM #10080. You submitted a supplemental e-form 27 (doc #401244706) dated 03/28/2017 that included lab results showing compliance with Table 910-1. Alex added a note asking what pit material meant and where were the samples taken. You responded that you were going to check with Dave Nicholson.

As soon as you get that information, I will pass the e-form 27 (and close the REM #10080) and I will change the status of the Pit #423847 to CLOSED.

Thanks,

Carlos

Darla,

Can you still enter old form 27s? I still have about 9 old Form 27s from Linn Energy that I am reviewing.

If you cannot, please let me know to tell Linn Energy to re-enter using the e-forms.

Here is the information, just in case
