Corrective Action: Reclaim Location. CA Date to begin Final Reclamation remains at 10/5/2013 from Previous Insp.Doc#663902116. ASAP Cover Culverts housing Lines/valves. Control Noxious Weeds with appropriate timing of applications. Respond to Inspector to notify that New Operator is aware of this Well & it's Out of Compliance Status. ASAP Cover Culverts housing Lines/valves.

Date: 10/15/2013

Response: CA COMPLETED

Date of Completion: 06/30/2017

Agreed. M. Gardner spoke with Lou Colby on 5/1/17. Cover to open culverts were covered. Pad location is

Operator Comment: already included on list of locations to spray for noxious weeds; however, going forward, TEP will also include the fresh water pond area into the schedule of future spraying to prevent the spread of noxious weeds. Also discussed status of fresh water pond (currently inactive). See attached Corrective Action Plan for additional information about corrective actions discussed with Lou Colby.

Reclamation of the pad area is scheduled to begin by mid-June 2017, and be completed by June 30, 2017.

COGCC Decision: Approved pending re-inspection

COGCC Representative: Photo attached has shown Resolution of CA to Cover Open Culvert. Re-inspection to document Reclamation will be conducted after date given for completion in Operator Comments.

2 ☒ CA# 71046

Corrective Action: Identify Pit & permitting. Close Pit or provide Documentation that determines it is Active & not related to Well. CA Date remains at 9/13/2013 from Previous Insp.Doc#663902116.

Date: 09/13/2013

Response: CA COMPLETED

Date of Completion: 05/01/2017

Operator Comment: The status of this pond has been discussed with COGCC for several years. This is a fresh water pond that was built to support drilling activity on Trail Ridge in the 2007 - 2009 time frame. This pond was never associated with operations at the MV 1-23 well and pad. This pond has never been used for produced water storage, and therefore was not required to be permitted through COGCC. The pond design was reviewed and approved by the Colorado State Engineer's Office as a fresh water storage impoundment. An approval letter from the SEO is attached. TEP wishes to keep this pond open in anticipation of potential future fresh water storage needs in the Trail Ridge area.

COGCC Decision: Approved

COGCC Representative: Documentation attached to this Form & Operator Report below have Resolved this CA.
