Reseed areas of the access road and the location to facilitate desirable vegetation establishment.

Date: 04/28/2017

Response: CA COMPLETED

Date of Completion: 04/25/2017

Operator Comment: Tilled hardpan and reseeded entire section of road between landowner's cattle trail and Craig 10-28 location. (See attached map showing area outlined in orange) Which is the section of road that the landowner does not want to retain. Then installed wattles to slow precipitation runoff and help retain moisture. Installed electric fence around seeded road to keep cattle and vehicles out.
