**Interim Reclamation:**

Date Interim Reclamation Started: \_\_\_\_\_ Date Interim Reclamation Completed: \_\_\_\_\_

Land Use: \_\_\_\_\_

Comment: Project area is surrounded by sagebrush shrubland with an understory of weedy annuals and Russian knapweed with sparse western wheatgrass. It is in a fenced field where the surface owner is stores unused equipment and materials. It appears that the working area was scraped of vegetation. Disturbance areas outside of the working area are largely comprised of annual weeds and Russian knapweed. Little desirable vegetation is present as it does not appear that interim reclamation areas were seeded.
