CORRECTIVE ACTIONS:

1 ☒ CA# 71110

Corrective Action: Operator is directed to continue to remove impacts from the vegetated area and the residence to the west in a timely manner to prevent precipitation or stormwater from impacting downgradient surface water. Corrective Action Date in this inspection is the inspection date to indicate the need for immediate and continued response to remove the impacts. Operator is directed to report all corrective actions through the eForm 19 Spill Report.

Date: 04/24/2017

Response: FACTUAL REVIEW REQUEST

Basis for Review: Action requested was already completed prior to the inspection

Operator Comment: Rick - I wasn't sure which "basis for review" item to choose, but one thing on the inspection (has nothing to do with the CA, but the background on the release) that we would like to clarify:

A neighbor called our emergency line to inform us of the release. That same neighbor called a previous employee of Bayswaters, who then contacted the pumper (Tyler Greenley) for the Schneider/Baldrige. We are not sure who exactly called the Fire Department.

COGCC Decision: Approved

COGCC Representative: COGCC revised inspection report language

OPERATOR COMMENT AND SUBMITTAL

Comment: Bayswater requests a change in language on the Spill background in the comments section, prior to the Corrective Action notes.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
