Ally,

I have reviewed the referenced Form 2A Oil & Gas Location Assessment and have the following comments.

1) You have included several Best Management Practices (BMPs) that deal with production facilities. As this proposed Oil & Gas Location will not have production facilities on it, just five wells, I would like to remove those BMPs. They are:

- * Berm Construction

- * Visual Impact - Production facilities
- * Tank Specifications
- * Buried produced water vault installation
- * Noise mitigation for production facilities

Agreed

2) Now that the Public Comment period has ended, please send me a letter certifying PDC Energy's compliance with COGCC Rule 306.e. If any meetings/consultation were held, please also indicate their outcome.

Please respond to this correspondence by June 5, 2017. If you have any questions, please contact me. Thank you.
