CORRECTIVE ACTIONS:

1 CA# 58534

Corrective Action: Reclaim access Road and Associated Facilities; Performing Final Reclamation per COGCC 1004 Rules; Reclamation Activities to be complete in Spring of 2017. If Concrete Valut is determined to be Part of Active Producing Facility/ Line notify Inspector. Date: 06/01/2017

Response: CA COMPLETED Date of Completion: 05/10/2017

Operator Comment: The landowner would like to keep the access road that was noted in your inspection so Encana will work with that landowner to get a Landowner Variance Waiver completed and then we will resubmit a new Form 4 (bond release) and the Waiver later this summer. I also believe the cement block noted in the inspection is the landowners, so we will get that addressed in the waiver or have the landowner move it to a different loccation.

COGCC Decision: Approved pending re-inspection

COGCC Representative: Operator called & discussed with Inspector before submitting. Re-inspection on hold until either Variance processed or notification of CA Complete.
