Melissa,

I checked our records for wildlife surveys on this location. The last survey was performed in 7/2016 with no evidence of a prairie dog town within one mile of the proposed location. We will conduct a pre-construction survey of the location next week to ensure that habit for the burrowing owl is not present before we begin construction.

Respectfully,

Jennifer A. Dixon

This is excellent information. Thank you. May we use the above information as a wildlife BMP?
Thanks
Melissa

Hi Jennifer
My apologies, I just noticed that the BMP did not include the swift fox. Did the survey include a den survey. And/or may we add it to the pre-construction survey?
Thanks
Melissa

Melissa,

No problem, thanks for mentioning that, we will also perform the swift fox den survey while we are on location.
