Dear Mr. Gage:

As you will recall, last August I sent you a list of Carter & Carter wells categorized by the condition of the well.

If my recollection is right, you had some clients who were to take over some of the operation and attempt to salvage or operate.

We would appreciate hearing from you of their current plans and obtaining a list of the wells that they will be taking over.

As I pointed out before, we are glad to go along with the possibility of something developing; and we now feel that something definite as to completing or possibly plugging must be done in the next few months.

We would appreciate hearing from you at your earliest opportunity.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION

William R. Smith
