Permit	Removed comment from Spacing & Formations section with operator approval. Removed unit configuration from spacing order. Order changes the setback from 600' to 100' and doesn't change the federal unit. Operator approves changes. Corrected Logging BMP as per operator. Final review complete.	05/22/2017
Permit	Removed plugging bond due to Fed/Fed lands and notified operator. Preliminary review complete.	04/10/2017

Engineer	Offset water well check: COGCC evaluated offset water wells within one mile of this proposed well's surface hole location. This information was used in addition to locally-available geophysical logs and hydrogeologic information was used to evaluate the adequacy of the operator's proposed surface casing setting depth. The deepest water well within one mile is 128 feet. Offset Well Evaluation: Existing offset oil and gas wells within 1,500 feet of this wellbore meet standards. No mitigation required.	03/16/2017
