WELL ABANDONMENT REPORT

This form is to be submitted as an Intent to Abandon whenever an abandonment is planned on a borehole. After the abandonment is complete, this form shall again be submitted as a Subsequent Report of the actual work completed. The approved intent shall be valid for six months after the approval date, after that period, a new intent will be required. Attachments required with the Intent to Abandon are wellbore diagrams of the current configuration and the proposed configuration with plugs set. A Subsequent Report of Abandonment shall indicate the actual work completed. Attachments required with a Subsequent Report are a wellbore diagram showing plugs that were set and casing remaining in the hole, the job summaries from all plugging contractors used, including wireline and cementing (third party verification) and any logs that may have been run during abandonment.

Technical Detail/Comments:

This well is due for an MIT the 1st of June. We have been in contact with Diana Burn and she suggested we ask for an extension on the MIT but to provide a Finite date for plugging. We have submitted the AFE's for partner signature, they are allowed 30 days to return the paperwork. Therefore, we are asking for an extension on the MIT until late June, early July. We will be able to set a definite date once the AFE's are returned, the Form 6 Intent to plug is approved and a date confirmed with the service company. We will provide a definite plugging date to the COGCC as soon as possible.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
